- 6) ☐ Other:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14 and 21-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ichikawa et al (US-5,028,916, cited by Applicant on 10-24-01) in view of Wakai et al (US-5,032,883).

Ichikawa discloses a display device having a plurality of first signal lines (20) and a plurality of second signal lines (16), a plurality of switching elements (24), a plurality of pixel electrodes (26), and a driver circuit comprising at least one IC chip (110 or 112) for driving the switching elements (24). Wakai discloses a display device having a smoothing film (108) having organic resin formed over the switching elements. Therefore, it would have been obvious to one of ordinary skill in the art to use the smoothing film formed of organic resin as taught by Wakai in Ichikawa's device. No patentable weight is given to the "tape automated bonding process" in claim 8. A "product by process" claim is directed to the product per se, no matter how actually made, In re Hirao, 190 USPQ 15 at 17(footnote 3). See also In re Brown, 173 USPQ 685; In re Luck, 177 USPQ 523; In re Fessmann, 180 USPQ 324; In re Avery, 186 USPQ 161; In re Wertheim, 191 USPQ 90 (209 USPQ 554 does not deal with this issue); In re Marosi et al, 218 USPQ 289; and particularly In re Thorpe, 227 USPQ 964, all of which make it clear that it is the patentability of the final product per se which must be determined in a "product by process" claim, and not the patentability of the process,

Art Unit: 2814

and that an old or obvious product produced by a new method is not patentable as a product, whether claimed in "product by process" claims or not. Note that applicant has the burden of proof in such cases, as the above caselaw makes clear.

Claims 15-20 stand allowed.
